Mr. Peter Zomaya

Chicago, IL. 60661

Dear MR. Zomaya:

This is in response of your letter of Nov. 6, 1996 requesting details about the PRANAM BHARAT TV program, which is aired through channel 23.

My name is Joseph chacko (Kottayam Joseph), and I am the Producer of PRANAM BHARAT TV. PRANAM BHARAT TV is a subsidiary of BHARATAM CORPN. The following is a brief definition about our TV program and the community we serve.

INFORMATION PERTAINING TO PROGRAM CONTENT

PRANAM BHARAT TV is directed to an audience mainly from South Asia. This program began airing from your station starting Sept. 17, 1994, and the time of telecast is from 11.00 A.M. - 12.00 P.M. on Saturdays; and it is a one (1) hour program.

It is predominantly a locally produced program; however occasionally we use some programs already produced in India based on their impact on our audience who are from that part of the world. There fore , I must say that about 90% of the programs is locally produced.

About 17 - 20% of program is news about South Asia received through FAX transmission from India; the news segment also contains news about South Asians living in the western hemisphere, particularly in Chicago. The news covers the latest developments in politics, economy, sports, entertainment and religion in the indian subcontinent, and other major stories about Indians and Pakistanis living in Europe and America. The medium of presentation is Malayalam, a national language of India, with occasional use of Hindi, another language of India.

A major thrust of our program is in the area of entertainment covering selected portions of music productions and of a variety of movies having a great social impact on South Asians.

The non-entertainment part of the program is also equally important in the PRANAM BHARAT TV program, which is about 30% of the total content of the program. It contains panel presentations, interviews with experts and leaders of the community, and youth forums. The topics include acculturation, education, immigration, social security issues, family issues and a variety of issues which are relevant locally, nationally and internationally.

page2

It is locally produced when dignitaries of the community visit Chicago; however, some produced in India, are also occasionally used.

Generally we do not produce and present religious programs in our TV program. But, during the seasons of religious holidays we highlight them according to the interest of the people by providing segments of some relevant religious productions or musical items. Occasionally messages from religious leaders are also presented.

We do not air programs specifically produced for children under 16. However, some youth programs might touch issues related to children, but it is negligible. We do not have any sports programming either.

During the past two years of our existence, we were featured in the Chicago Tribune and many other periodicals serving the South Asian community.

INFORMATION PERTAINING TO OUR COMMUNITY

There are about 250,000 South Asians (Indians, Pakistanis and Bangladeshis) living in the Chicago metropolitan area. They speak Hindi, Urdu, Malayalam and other regional languages of South Asia. The community that speak Malayalam is of significant size. They do not have any other electronic media serving them in this region; and hence PRANAM BHARAT TV & RADIO is of great importance to them. It is a very useful vehicle for this people to relive their culture, heritage and language as they are separated from their country of origin by thousands of miles. PRANAM BHARAT gives these people an opportunity to refresh their memories of the old country. There is another program available for just the Hindi speaking people from South Asia, but the advantage of PRANAM BHARAT is that it also serves another minority language community, and the primary language of this community is Malayalam, a language of greater literary wealth among many regional languages of South Asia. How our programs meet the specific needs of our audience is clear from the paper clipping attached herewith.

If you need any other details, please feel free to contact me.

We enjoy the partnership with you in serving our community. We also appreciate your valuable input in this venture.

Sincerely yours,

Joseph Chacko, Producer

Dear Mr. Zomaya:

In reference to your letter of November 8, 1996, here is the information you have asked for and in a letter form:

I am the producer of the United Chinese TV (UCTV) Program aired by WFBT-TV 23 every Sunday between 1:00 and 3:00 P.M., mainly for the Chinese community in the Chicago area, which is estimated to have a population of some 60,000. The same program is also aired in other areas of Chinese concentration in the United States and Canada, such as San Francisco, Los Angeles and New York.

The UCTV program is a weekly magazine type report from Taiwan, edited here by this company, the International Audio-Visual Communication Inc., with TV footages provided by the three TV networks in Taiwan, namely, Taiwan Television Enterprise Ltd., China Television Company, and Chinese Television System.

The magazine type program lasts for two hours, containing four major parts: (1) News report, news analysis or cultural report; (2) Entertainment; (3) Drama play; (4) Cooking lessons.

The first part of this program lasts 30 minutes, in which news report may be as short as only five minutes, but may be extended to a whole hour or even the entire two hours if there is a special event worth a lengthy report, such as national day celebration, Chinese lunar new year, or traditional festival. The news analysis is usually given in a panel presentation with the invitation of scholars or experts

to serve as commentators. Cultural report may cover an art exhibition, or some other cultural activities.

The second part of entertainment also lasts 30 minutes, which may be purely songs and dances, or a combination with talk shows or comedy shows.

The third part of drama plays normally lasts 50 minutes, which may be presented in a single play for that week only, or a serial drama to be shown for several weeks, depending on the original presentation.

The last part of cooking lessons has only 10 minutes, in which recipes for preparing Chinese food are introduced and the ways of preparation are demonstrated by the teacher. We have a renowned woman, Ms. Fu Pei-mei, to handle the teaching work.

That is all we can tell you about our UCTV program. If there is any other information you may wish to know, please don't hesitate to write me again.

Wishing you every success.

DESCRIPTION OF *CHICAGO CHINESE TELEVISION* PROGRAM

Chicago Chinese TV Corporation

November 13, 1996

Dear Sir/Madam:

I am the general manager of the "Chicago Chinese Television (CCTV)" which airs from 6:00 PM-7:00 PM daily on Channel 23 in Chicago. The "CCTV" has been on the air with WFBT-TV, Channel 23 since April, 1989, and there are over 80,000 people from the Chinese community who watch our program regularly.

CCTV's daily program airs significant news, entertainment and variety to the Chinese Community in Chicago. The program is produced in Chicago, and 60% of the program is produced locally. There is a weekly news magazine which devoted to issues and events affecting Chinese Americans on a local, national and international level. As one of the purpose of our station is to promote the Chinese culture and heritage, we produced a TV serial "Chicagoland Chinese Artists", which presented over dozen Chinese artists including brush painters, musicians and hand-craft artists for their artisan achievement. In addition, a variety of programs has been produced locally to assist new immigrants to begin their new life here in the US. The other 40% contains news form China and TV dramas produced by overseas studios.

Each week we also include a public service segment in our program. This feature is entirely local in nature and provides items of interest for the Chinese-American community, such as season fairs and parades in China Town, and free public bulletin for the services provided by non for profit organizations in the Chinese-American community.

Currently, we are the only group in Chicago providing programming specifically of interest to the large Chinese-American community, and there is no other outlet or program devotes time exclusively to the issues faced by our community.

Re: WFBT-TV (CH. 23)/"CATV"

To Whom It May Concern:

I am the president of CATV, Inc., which produces "CATV", a weekly program which airs on Saturdays from 1:30 p.m. to 2:30 p.m. "CATV" has been on the air with WFBT-TV, Channel 23 since March of 1996.

"CATV" provides news, educational segments, cultural segments and Croatian music/variety to the Croatian-American community in the Chicago area. Approximately 75% of the program is locally produced. Material not locally produced usually comes from Croatia. A variable percentage between 10% and 20% of programming is dedicated to local news events effecting the Croatian-American community in the Chicago area.

We also provide the Croatian-American community with public service announcements for such events as educational, cultural (music) events, church activities, etc.

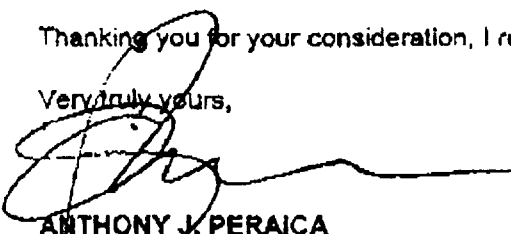

I think it is very important to note that "CATV" is the only regular Croatian television program currently being aired in the Chicago area. CATV is a vital source of news to those 150,000 Croats in the Chicago area who speak only, or primarily, Croatian. As such, CATV also serves as the community's only link to the cultural changes taking place in the newly-independent Croatia. An example of this is the music videos we air, which are produced in Croatia and provide young Croatian-Americans with a vital link to their cultural heritage.

CATV is also important in instilling a sense of pride in Croatian-Americans. We regularly run features on Croatian-Americans of note, and these features have included Chris Zorich of the Chicago Bears, and Anthony Maglica, founder of the Mag-Lite Corporation. These features serve to show Croatian-Americans the contributions their community has made to their adoptive land.

In summation, CATV is the only television program which provides news, educational and cultural programming, and other programming of interest to the Croatian-American Community in Chicago. Croatian-Americans have long been shut out from the airwaves in the Chicago area, and CATV is a small, but important beginning in addressing the needs of Croatian Americans.

Thanking you for your consideration, I remain

Very truly yours,

ANTHONY J. PERAICA
President

We strongly support the efforts of WFBT-TV, Channel 23 in Chicago. Channel 23 is the only television station in the Chicago area that services the multi-cultural communities with local programming which provides local, national, and international news, children's programming, panel discussions, public affairs, variety, music, etc. in our native language.

It is our community's desire to maintain close ties to our heritage and culture and Channel 23 is the only source to serve our needs. It is the only programming we have and we will do anything possible to preserve this outlet for our people.

Channel 23 has helped the community by announcing our important events which deal with scholarship grants, awards to significant community leaders and vital educational information. We need this outlet in Chicago.

Our day to day needs are accommodated by the services this station has provided for the past several years. It is incumbent upon the governing agencies to protect the special services that most media do not provide. Our community would not have any source to display our culture which we feel America is about.

We are open to cooperate and we are well received by all 18 Romanian churches of different denominations in Chicago. Many of our programs contain activities and services from other churches than Philadelphia Church.

Our program provided special coverage of Opening of Romanian "Mircea Eliade" Library, Romanian elections in Chicago, Romanian Pentecostal Convention, Romanian Baptist Congress, Taste of Romania, Romanian Classic Music Concerts, Romanian Christmas Carols Concerts.

The variety of our program, the openness to other Romanian groups, and the cultural dimension of it make it so different of other Romanian program which is primarily a one man show. We consider our program of a great importance for our Romanian community in Chicago, and we are determined to continue and excel in quality in relevance, helping Romanians in the sometimes painful and difficult process of adjusting to the American society.

Dear Mr. Zomaya:

I am the Producer of the "RTV-Chicago" which airs Sundays from 3:00pm-5:00 pm on Channel 23 in Chicago since July 14, 1996.

"RTV-Chicago" airs latest news, entertainment, musical shows and variety of Russian community in Chicago. The program is produced in Chicago. 65% of the program is produced locally. The other 35% contains news and feature presentations from Russia. Approximately 25% of the program is devoted to local news events pertinent to the Russian-American community in Chicago.

We also locally produce discussions weekly devoted to issues affecting our community on a local, national and international level. These discussions are called "Talk to a Specialist". The name is selfexplanatory, which means that we invite one or more specialists in various fields and ask them to comment on different aspects of our life.

Each week we also include a local panel discussions segment "Rhythms of Chicago". This feature is entirely local in nature and provides items of interest for the Russian-American community such as local current events. We usually include interviews with political and social leaders, as well as reports on current state of affairs.

Twice a month we show a historical documentary "Monster" featuring one of the cruelest leaders of the 20th century- Yousif Stalin.

As many of the Russian immigrants are Jews, a video journey around Israel is getting more and more popularity among our viewers.

Our program also includes a cultural segment aimed at children 12 and under. This segment airs every week and provides favorite cartoons from Russia.

Our musical segment consists of general information about performers all over the world as well as video clips with their appearances.

Currently we are the only group in Chicago providing television broadcasting on air and cable specifically of interest to the large Russian-American community here. No other station or program devotes time exclusively to the issues faced by our community. There is no other outlet the Russian-American viewers to receive latest news and traditional entertainment from our native country.

*The Russian American Television Broadcasting***FACT FILE**

This file contains demographic and geographic information about the Chicago area's Russian speaking population, which RTV-Chicago has been serving for the past year.

Russian immigrants in the United States have been resettling in the Chicago area for the last 100 years. The latest migration wave began in 1989, when the former Soviet Union relaxed its immigration laws. Since the breakup of the U.S.S.R. in 1991, the flow of Russian-speaking immigrants has quickened. Today Chicago is home to at least 120,000 Russian speaking people (some sources estimate about 200,000), of which:

- * 60% are 25 to 45 years old
- * 20% are 46 to 75 years old
- * 35% own their own home
- * 65% are highly educated
- * Average income is \$70,000.00.

A Russian speaking television broadcasting in Chicago is a necessity for these new immigrants. Most of them do not speak or understand English well, so their major source of news, entertainment and advertising native language.

RTV-Chicago broadcasts every Sunday from 3pm-5pm on channel 23 - Regular TV and from 9 p.m. to 11 p.m. on several cables in Chicago and its suburbs.

Join RTV and use this opportunity to expand your business! Remember, this is a captive audience of well educated people with a high disposable income.
